DS Response

As a rule, transitional pastors are encouraged to report to the DS each month concerning progress on reaching the goals stated in the strategic plan for preparing the church for its next pastor. It would be really helpful if there was a tool included on the portal that would enable the pastor to complete the form each month and then have it automatically submitted to the district where he is serving. It may also be a nice feature if the site could alert the pastor to the need to complete the report.
